

Technologies of War, curated by Mr. Jimmy Chapman

2020 marks the 75th anniversary of the allied victory in World War II. It has been 75 years since the world defeated the failed ideologies of fascism that resulted in the deaths of 70-85 million people world-wide.

Everyone suffered in that conflict and Canada's history reflects that. Refugees from all over the world settled in Canada following WWII.

Canada's history therefore includes artifacts and stories from all sides of that awful conflict, as the artifacts exhibited here reflect.
